Summary

Software engineer with over 3 years of experience building customer-facing web apps and internal business systems with TypeScript, React, Vue, Next.js, Node.js, and Laravel. Experienced in frontend architecture, API design and integration, SQL and Redis, and deploying to AWS and Linux servers. Uses AI coding tools (Claude Code, Cursor, Codex) daily, while owning code quality through review and testing.

Experience

Rezerv (Codigo) — Frontend Developer — Sep 2025 — Present

React · Next.js · Tailwind · MUI · Recoil · TypeScript

- Build payroll, transaction, and referral UIs with sortable data grids and reporting dashboards.
- Integrate REST APIs and manage state with Recoil and React Query in large Next.js apps.
- Create reusable components and TypeScript types for a consistent, maintainable codebase.
- Work with product managers, designers, and backend engineers from requirements to release.
- Use Claude Code and Codex for debugging and refactoring, reviewing and testing all AI output.

rezerv.co

Oway Travel — React Developer — Mar 2025 — Sep 2025

React · Next.js · SASS · Zustand · SEO

- Modernised the legacy web platform into a component-based React architecture, making it easier to maintain and extend.
- Designed the Next.js architecture (SSR/SSG, routing) for a new loyalty points system from scratch.
- Improved search visibility and page indexing through SEO work and Prerender.io integration.
- Migrated complex Redux workflows to Zustand, reducing boilerplate and simplifying state management.

owaytravel.com

UMG Myanmar — Web Developer

Mar 2023 — Mar 2025

Vue · Nuxt · React · Laravel · Node.js · MySQL · MongoDB · Redis · AWS · Nginx · Linux

- Built and maintained full-stack enterprise apps for employee training, attendance, meeting rooms, minutes, and performance reviews.
- Reduced repeated Odoo API calls to roughly one-third through Redis caching and direct API integration.
- Developed purchasing workflows and Dinger payment integration for TeaTalk, an internal social platform.
- Managed Linux servers and AWS deployments using Nginx, Apache, and PM2.
- Gathered requirements from internal users and worked with mobile developers and QA to ship production features.
- Mentored two intern developers through task assignment and code reviews.

Selected Projects

Rezerv — B2B SaaS Platform

A business management platform for service-based companies, covering booking, membership, referrals, payments, payroll, sales transactions, and reporting. I built customer and business portal experiences, integrate complex APIs, manage shared application state, and collaborate with product managers and backend engineers to turn operational requirements into reliable features.

React · Next.js · TypeScript · Tailwind · MUI · Recoil

rezerv.co

Oway Travel — Online Travel Booking Platform

A customer-facing travel platform for searching and purchasing flights and other travel services in Myanmar. I helped modernize its legacy web experience, established the Next.js structure for a new loyalty points system, improved SEO with Prerender.io, integrated AYA Pay and KBZPay, and simplified selected Redux workflows using Zustand.

React · Next.js · TypeScript · Redux · Zustand · SASS · Prerender.io

owaytravel.com

TIS — Employee Training & Performance System

An internal platform for managing employee classes, enrolment, attendance, reviews, and performance calculations. I worked across the full stack, reduced repeated Odoo API calls to roughly one-third through Redis caching and direct integration, and coordinated with users, mobile developers, and QA engineers.

Vue.js · Laravel · Redis · Odoo APIs · SQL · Nginx · Docker

Private internal system

TeaTalk — Social Platform

A company social platform with Facebook-style content and interaction features alongside purchasing and payment workflows. I implemented Dinger integration for the ICE management system, contributed across React and Node.js, and managed production deployment while keeping delivery on schedule.

Nuxt.js · Node.js · TypeScript · MySQL · MongoDB · Dinger · PM2 · Nginx · AWS

Education

University of the People Apr 2025 — Aug 2026

B.S. Computer Science · GPA 3.5 / 4.0 · transfer credits applied

European International University Jun 2024 — Nov 2026

B.Sc. Information Technology · Final project submitted, awaiting results

Skills & Tools

Programming	JavaScript, TypeScript, Python, PHP
Frontend	React, Next.js, Vue.js, Tailwind CSS, MUI, ShadcnUi
State & Data	Zustand, Redux, Recoil, React Query
Backend	Node.js, Express, Laravel, REST APIs, Prisma
Databases	PostgreSQL, MySQL, MongoDB, Redis
Infrastructure	Linux, Nginx, Docker, AWS
Tooling	Git, Vite, ESLint, Prettier
Additional	SEO, payment integrations, Scrum, AI coding tools (Claude Code, Cursor, Codex)

Languages

Burmese (Native) · English (Business level) · Japanese (NAT-TEST 3Q passed)

Certifications

Advanced React — Meta · Apr 2025

IBM Full Stack Software Developer Specialization — IBM · Jun 2025

Developing Back-End Apps with Node.js and Express — IBM · May 2025

Introduction to Agile Development and Scrum — IBM · May 2025

Japanese Language NAT-TEST 3Q · Jun 2026
